

PALM CREEK COMPUTER CLUB GOALS AND OBJECTIVES

The goals of the computer club are to:

- ✓ provide a forum for members to meet and discuss computer issues
- ✓ keep up to date with new technology
- ✓ increase enjoyment and understanding of today's cyber world
- ✓ provide education about computers and software
- ✓ broaden horizons of computer use
- ✓ introduce new programs and options for computer usage

The club is geared toward all skill levels, from beginners to advanced users. We find topics of interest for all computer enthusiasts. Basic computer skill instructions are provided at the end of most regular meetings.

Members are encouraged to participate in our photo sharing project where we create a five minute slide show/movie of our favorite pictures.

Dues are \$10 for the season (per site) or \$5 per meeting.

Digital copies of our meeting files will be available in March 2017. A USB Flash Drive will cost approx. \$12.00 - \$15.00.

All class files are available at www.PalmCreekComputerClub.Info

Meetings are Wednesday mornings at 9:30 and run 1 to 2 hours depending on the format.

The last Wednesday of each month may focus on more advanced topics. All members are encouraged to attend.
